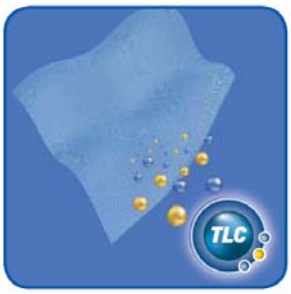
NEW URGOTUL

Flexible contact layer with TLC

The **NEW Urgotul®** is available on Drug Tariff since the **1st of May 2010**.



The **NEW Urgotul®** continues to offer all the **excellent and proven benefits of TLC** (Technology Lipido-Colloid): moist environment [1,2], pain free dressing changes [1], stimulation of fibroblast proliferation [3], protection and improvement of surrounding skin [4] and can still be left in place for up to 14 days [1].

Now with optimum flexibility, the **NEW Urgotul®** has **greater conformability** to the wound bed, is stretchable to move with the body, has excellent patient comfort and stays in place when applied [5].

The **NEW Urgotul®** is indicated for non to low exuding wounds, including cavity wounds. For heavily exuding wounds it can be used with an absorbent pad.

Now available in a wider range of sizes, including a **20x30cm** which is **20% less expensive than Mepitel 20x32cm** [6], the **NEW Urgotul®** now comes in packs of 10 (community) which are more convenient for prescribing and storage.

Size (cm)	Product Code	Pack size	PIP Code	New NPC Code
5 x 5	504004	10	354-5498	N/A
5 x 5	504005	40	N/A	EKB056
10 x 10	504007	10	354-5506	N/A
10 x 10	504008	25	N/A	EKB057
15 x 20	504010	10	354-5514	N/A
15 x 20	504011	16	N/A	EKB058
10 x 40	504009	10	298-3260	EKB059
NEW SIZE 20 x 30 cm	504012	5	354-5480	EKB060
